

Staffing plan

The proposed staffing plan is articulated on three levels:

- 1) the Secretary General, in charge of coordination as per the Regulation;
- 2) the Secretariat;
- 3) a third level, which would be in charge of logistics (web site management, communication and relations with Committees and the Plenary), co-ordination of interpretation services and accounting. Staffing plan cannot be lower than three units (an officer for each level), although a staff allocation adequate for carrying out the operative tasks of the Secretariat (logistics, interpretation and accounting) would be desirable.
